

Dear Bridge Center Family,

The Bridge Center is excited to announce several upcoming changes to our riding programs beginning Fall Session 2018. Rather than having several eight-week sessions, the Bridge Center is implementing a schedule of four longer sessions that more closely follow the school calendar. We are also extending our riding program to a Monday through Saturday schedule to better accommodate our riders. These longer sessions and our new open registration schedule allow riders to register for multiple sessions at a time and open more availability for riding times.

Registration for **all** riding programs opens **July 15, 2018**. Lesson slots are assigned on a first come, first serve basis and do not carry over from session to session. Program details, session dates, and deadlines for each session are listed below:

Seasonal Riding Program
